

# OpenAPM

The Initiative for Open, Tailored APM Solutions

Philipp Merkle, Alexander Wert

# Application Performance Management (APM)

# The Top Dogs

---

## ... at the commercial APM market

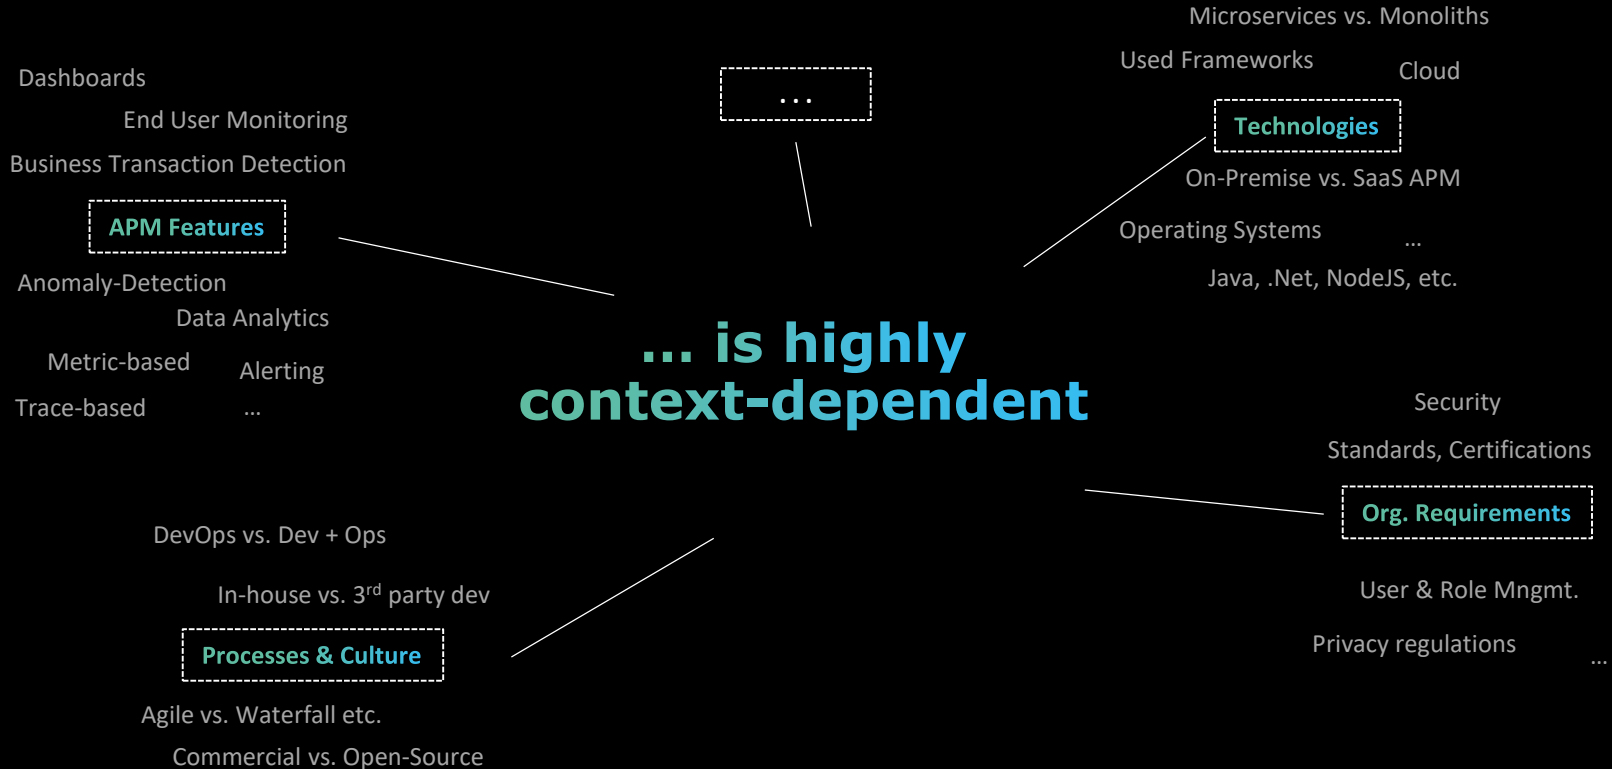

- Dynatrace
- AppDynamics
- New Relic
- Data Dog
- Riverbed
- Instana
- CA APM
- IBM Corelsense
- ...

One Size Fits All?

-

**NOT with APM!**

# Selecting an APM solution ...

---

APM solutions need to be  
**tailored**  
to the individual contexts!

**to the rescue!**

# The Beauty of Open Source Tools for APM ...

---

There are a lot of them!

Narrow scope → specialized!

Used at high scale in production

Open, extensible, composable

# ... and the Questions

---

Which tools are out there for APM?

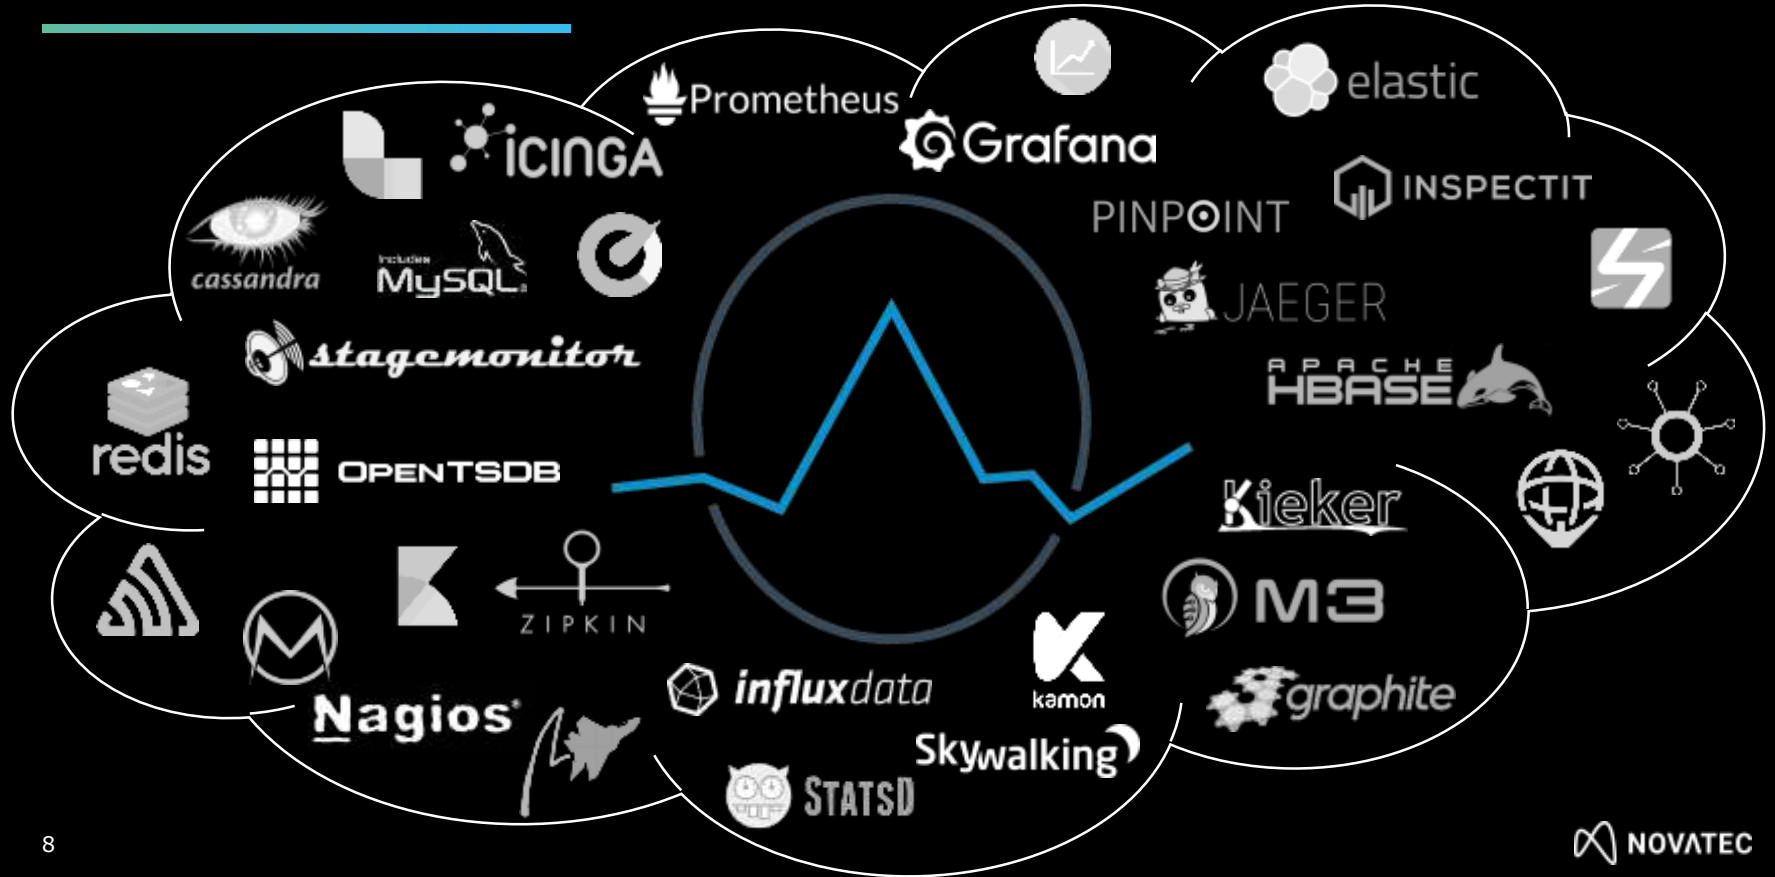

What are they good for?

Which tools are composable & how can they be combined?

Which combinations are suited for which scenarios?

# Let's Wrap Up

---

**NO One-Size-Fits-All with APM!**

**Possibilities of  
open-source APM**

**Examples of  
combining tools**
